

International Conference on Computer Science and Information Technologies (CSIT-2023)

The 14th Biennial International Conference on Computer Science and Information Technologies (CSIT-2023) will be held in Yerevan, Armenia during September 25 – 30, 2023.

The conference has been held since 1997 and aims to present new results and new challenges facing the field of computer science and information technologies. It intends to connect professionals from industry, business, government, academia, engineers, researchers and scientists.

The major topics include, but are not limited to the following:

Algorithms, Automata and Logic
Artificial Intelligence and Machine Learning
Cloud and High Performance Computing
Cognitive Algorithms and Models
Cryptography and Cyber-security
Design and Test
Discrete Mathematics and Combinatorial Analysis
Information Technologies Applications
Information Theory and Coding Theory
Distributed Systems
Big Data and IoT
Pattern Recognition and Image Processing
Telecommunication and Networking.

The conference program will include presentations and poster sessions, along with prominent keynote speakers and thematic workshops.

Submissions:

Authors are invited to submit abstracts for presentation and full papers for publication. Both submissions should be written in English. Experts will review all submitted abstracts and full papers considering the criteria of originality, scientific merit and relevance to the conference topics. Accepted abstracts will be published (up to 2 pages in length) in the Conference Proceedings. Selected full papers should be 6-12 pages and will be published after the conference during the year in an indexed edition.
