

International Conference on Computer Science and Information Technologies (CSIT-2025)

The 15th Biennial International Conference on Computer Science and Information Technologies (CSIT) will be held in Yerevan, Armenia during September 22 – 26, 2025.

The conference intends to connect professionals from industry, business, government, academia, engineers, researchers and scientists.

The major topics include, but are not limited to the following:

- Artificial Intelligence and Machine Learning
- Big Data and Data Analytics
- High Performance and Cloud Computing
- Discrete Mathematics and Combinatorial Analysis
- Design and Test
- Information and Cybersecurity
- Pattern Recognition and Image Processing
- Mathematical Modelling
- Telecommunication and Networking

The conference program will include plenary sessions along with prominent keynote speakers with presentations and posters.

The conference also includes two thematic workshops: "High Performance Computer Science" and "Advanced Digital Technologies and Generative Artificial Intelligence in Education and Management"

Submissions:

Authors are invited to submit abstract for presentation and full paper for publication. Both submissions should be written in English. Experts will review all submitted abstracts and full papers, considering the criteria of originality, scientific merit and relevance to the conference topics. Accepted abstracts will be published (up to 4 pages) in the Conference Proceedings.

Selected full papers will be published after the end of the conference during the year in the Scopus or Web of Science indexed editions.
